

Xin Qian

✉ xinqian@seu.edu.cn

Objective

A theoretical physicist with interest in integrable modes, both in high energy physics and condensed matter physics

Education

- Niels Bohr Institute, University of Copenhagen**, Ph.D. in Theoretical physics Aug. 2022 Aug. 2025
- **Advisor:** Prof. Charlotte Fløe Kristjansen
- Niels Bohr Institute, University of Copenhagen**, MSc in quantum physics Sept 2020 Jun 2022
- **Advisor:** Prof. Charlotte Fløe Kristjansen
- School of Physical Science and Technology, Lanzhou University**, BSc in physics Sept. 2015 Jun. 2019
- **Advisor:** Prof. Zhanwei Liu

Work experience

- Shing-Tung Yau Center and School of Physics, Southeast University**, Postdoc Jan. 2026
- **Advisor:** Prof. Yunfeng Jiang

Publications

- [1] **X. Qian** and X. Zhang, Generalized Integrable Boundary States in XXZ and XYZ Spin Chains, [2601.16605](#) .
- [2] C. Kristjansen, **X. Qian** and C. Su, The spectrum of defected ABJM theory, [JHEP 05\(2025\) 207](#) .
- [3] T. Gombor, C. Kristjansen, V. Moustakis and **X. Qian**, On exact overlaps of integrable matrix product states: inhomogeneities, twists and dressing formulas, [JHEP 02\(2025\) 100](#) .

Academic Activities

- | | |
|---|-----------------------------------|
| Young Researchers Integrability School and Workshop | Nordita, Stockholm
Oct. 2022. |
| Integrability in Gauge and String Theory | ETH, Zürich
Jun. 2023, |
| Integrability, Dualities and Deformations | Nordita, Stockholm
Sept. 2025. |
| International Workshop on "Challenges in Integrability" | APM, Wuhan
Nov. 2025. |
| International Workshop on QFT and Beyond | SEUYC, Nanjing
Nov. 2025. |
| New Frontiers of Quantum Field and Gravity | PKU, Beijing
Jan. 2026 |

Teaching

- | | |
|------------------------------------|------|
| TA in course Gauge gravity duality | 2023 |
|------------------------------------|------|

Skills

Computational Languages: C, Python, Fortran, Mathematica, Matlab

Awards

- Excellent Graduates Award: 12, 2018
- Danish Governmental Scholarship 09, 2021
